

Squash features comparison

COMMUNITY PREMIUM

SQUASH TM				
 <p>Squash TM</p>	Test asset management	Manage requirements, test cases and datasets repositories	<input type="radio"/>	<input checked="" type="radio"/> + High level requirement
		Build a test asset related to agile objects from Jira and GitLab	<input type="radio"/>	<input checked="" type="radio"/> + Jira epics
		Monitoring of test design and execution via indicators in GitLab	<input type="radio"/>	<input checked="" type="radio"/>
	Test campaign management	View tests and execution results in Jira	<input type="radio"/> Jira Server	<input checked="" type="radio"/> + Jira Cloud and Jira Data Center
		Manage test planning and execution	<input type="radio"/>	<input checked="" type="radio"/>
		Design optimized execution plans via wizards	<input type="radio"/>	<input checked="" type="radio"/>
	Reporting of the global quality	Report bugs pre-filled with test steps to bugtrackers	<input type="radio"/> Mantis, Bugzilla, GitLab	<input checked="" type="radio"/> + Jira, Redmine, RTC, Tuleap, Azure DevOps
		Manage the progress of test projects via visual indicators and customized dashboards	<input type="radio"/>	<input checked="" type="radio"/>
	Integration	Generate test reports pre-filled by Squash from a perimeter of execution	<input type="radio"/>	<input checked="" type="radio"/>
		Manage authentication and delegation (LDAP, Active Directory, SAML 2.0*)		<input checked="" type="radio"/>
	Industrialize functional administration with a REST API		<input checked="" type="radio"/>	

SQUASH AUTOM				
 <p>Squash AUTOM</p>	Design with Squash TM	Write the tests in BDD format	<input type="radio"/>	<input checked="" type="radio"/> + autocompletion
		Build and manage an action words library for the BDD		<input checked="" type="radio"/>
		Structure the automation process using tasks and an automation workflow directly in Jira		<input checked="" type="radio"/>
	Implementation	Associating test scripts and manual test cases and integrate them into the test repository execution plan	<input type="radio"/>	<input checked="" type="radio"/>
		Triggering, chaining and managing automated multi-technology tests	<input type="radio"/> Cucumber, Cypress, Robot Framework, Junit, SoapUI, Postman, SKF	<input checked="" type="radio"/> + UFT, Ranorex, Agilitest, Katalon
	Automated test execution	Transmission of Squash TM parameters to automated tests	<input type="radio"/> Test cases	<input checked="" type="radio"/> + Campaign, Iteration, Suite
		Exploitation of the history of automated executions directly in Squash TM execution plans	<input type="radio"/> Automated suites	<input checked="" type="radio"/> + Automated tests
		Visualization, from Squash TM, of a user-friendly report (Allure format) on automated test results	<input type="radio"/>	<input checked="" type="radio"/>

SQUASH DEVOPS				
 <p>Squash DEVOPS</p>	Integration with Squash TM	Triggering automated tests of a Squash TM execution plan from your CI/CD	<input type="radio"/>	<input checked="" type="radio"/>
		Transmission of Squash TM parameters to automated tests launched from the CI/CDSimplified	<input type="radio"/> Test case	<input checked="" type="radio"/> + Campaign, Iteration, Suite
		Visualization, from Squash TM, of a user-friendly report (Allure format) on the results of the automated tests launched by the CI/CD	<input type="radio"/>	<input checked="" type="radio"/>
	Integration with the CI/CD pipeline	Simplified integration with Jenkins	<input type="radio"/>	<input checked="" type="radio"/>
Use of the Squash orchestrator as a Quality Gate in a CI/CD pipeline: the failure of any test in the automated test suite stops the pipeline		<input type="radio"/> Possibility of refining the pass/fail criteria starting in S1 2023	<input checked="" type="radio"/> Possibility of refining the pass/fail criteria starting in S1 2023	

SAAS SUBSCRIPTION

Henix offers SaaS subscription packages starting from 5 users.

SERVICES		
Versions	Server	Server or SaaS
Support and assistance	Forum	Professional support
Exchanges with the community and the editor	Forum	Access to the Squash User Club

● Features included in the offer ○ Features available, non-eligible to Squash Support

* In SaaS version, only authentication via SAML 2.0 protocol is available

PRICE TABLE FOR OUR PREMIUM OFFER

SERVER OFFER		Annual rates € excl. tax				
Squash TM	Number of users reported in Squash TM	50 users	100 users	250 users	500 users	500+ users
	ANNUAL PRIME RATE		6,000€	10,000€	20,000€	35,000€
Squash AUTOM	ANNUAL RATE	75% of the annual base rate (*)				
Squash DEVOPS	ANNUAL RATE	75% of the annual base rate (*)				

(*) for use of Squash AUTOM and/or Squash DEVOPS with a test repository other than Squash TM, basic price indexed on the number of users of this repository

SERVICE OFFER		Annual rates € excl. tax							
Squash TM	Number of users reported in Squash TM	5 users	10 users	25 users	50 users	100 users	250 users	500 users	500+ users
	SAAS		1,080€	2,160€	4,320€	8,640€	15,000€	30,000€	45,000€
OUTSOURCED SC TEST TOOLING in addition to the SERVER or SaaS offer (modular with white label service catalog for your projects)			from (**) 10,000€		from (**) 15,000€	from (**) 20,000€	from (**) 30,000€	from (**) 30,000€	On quotation
Squash AUTOM Squash DEVOPS	TEST FACTORY MCO (on customer site)	On quotation							

(**) according to chosen services, on quotation

Calculation example for a Serveroffer for 100 users with Squash TM, Squash AUTOM and Squash DEVOPS modules: 10,000€ + 0,75 x 10,000€ + 0,75 x 10,000€ = 25,000 € excl. tax/year
